Professional Experience

Montreal

November 2024 - Present

Front-End Developer

Lead the development of a financial system, focusing on feature implementation and delivery to ensure platform security and reliability. My responsibilities include enhancing user experience, optimizing performance, and ensuring alignment with industry best practices.

Syndesi

April 2024 - November 2024

Front-End Developer

Spearheaded the development and evolution of the Synchat platform's front-end, overseeing the project from concept to implementation. Collaborated on structuring the site's architecture, ensuring a seamless and intuitive user experience. Played a key role in defining technical frameworks, optimizing UI/UX workflows, and streamlining component interactions, all tightly aligned with product requirements.

Hyperlocal

March 2022 - April 2024

Front-End Developer

Developed features for the launch of AvecGo and drove product evolution. Collaborated on building the corporate design system (ensuring consistency and scalability) and implemented CrossX's user-centric layout. Delivered solutions using Agile methodologies, prioritizing technical best practices and code quality.

Education

January 2018 - December 2022

São Paulo - SP

Bachelor's Degree in Computer Science

University Nove de Julho
